Sparkling Silver

MD2388-G15  
Quartz Zinc

MG0091-G80  
Sparkling Titanium

With LUMIFLON™ FEVE Fluoropolymer paint system.

Natural finish is a living grade with an aluminium surface appearance where colour surfaces and surface variations may be visible

- Bare material may vary slightly in colour and surface
- Final coated product may vary slightly from samples
- Order projects in one batch to minimise colour differences
- Limitations regarding the end applications are defined in the warranty conditions. Please contact our sales office

## ANY COLOUR YOU WANT

- The colour chart presents pre-formulated colours with different finishes, surfaces, textures, iridescent effects and gloss levels.
- The paint systems and the coil coating technology also allow to apply in a wide selection of RAL, NCS, BS and DB colours.
- Our colour Lab is able to develop any custom colour for your projects. Please contact our office for more details on the possibilities.

## ANODIC

Dark Blue Gray

MD0098-G10  
Dark Gray

MD0045-G25  
Black C35

With LUMIFLON™ FEVE Fluoropolymer paint system.

### NOTE:

- The minimum quantity for all colours is 300 m<sup>2</sup> per order and per standard width, 500 m<sup>2</sup> for widths >1,575 mm
- Special colours are also possible. The minimum quantity is 300 m<sup>2</sup> for standard panel width and 500 m<sup>2</sup> for width >1,575 mm.
- Colour Chips may differ slightly from actual products due to printing. Match the colour with a colour sample.

- Colours may vary slightly between production batches. To ensure colour consistency, we recommend placing total requirement in one order.
- Should you use material of the same colour from different orders or production batches for the same project, please make sure to contact our sales office in advance.
